Staying healthy also requires enough sleep. It’s occasionally (OCCASION) OK to go to bed late, but if you cut down on your sleep regularly (REGULAR) it will have a bad effect on your overall health. It will also affect your appearance (APPEAR). Lack of sleep can cause acne or dry skin. Stay active during the day. If you don’t get enough exercise during the day, you may end up sleepless (SLEEP) all night.

Standing, sitting and walking badly can make you look heavier (HEAVY) than you really are. Stand in front of the mirror with your feet apart. Many young people feel guilty (GUILT) about eating too much chocolates and sweets, and some even admit an addiction (ADDICT) to it. However, there is no proof (PROVE) to support this. But chocolate does contain a lot of fat, and addicts would do better to eat less. If your diet is balanced you need not feel guilty: eating chocolate moderately (MODERATE) is fine but don’t eat it instead of a proper meal.
