

Modern Life, an online magazine, wants to know how towns around the world have been affected by globalisation. They have asked readers to send in articles on changes in their own town. The ideas will be used to create a special feature.

IS YOUR TOWN BECOMING MORE INTERNATIONAL?

We'd like to know how your town has been affected by globalisation. Is it still very traditional, or is there a multinational chain coffee shop on every corner? How do you feel about it?

Send us your article.

You have decided to send in an article. You should:

- describe what local features there are in your town
- explain how other cultures have influenced it
- assess the impact of the changes on people who live there

Write around **250 words**.
